THE MARKET HAS REVIVED

Moderate and Well Sustained Demand for Stocks Throughout the List.

THE BUYING INTERMITTENT

The Northern Securities Case Still the Point on Which the Whole Market Hinged.

(By Associated Press.)

NEW YORK, March 15.—There was a moderate and well sustained demand for stocks to-day, which resulted in a substantial advance in prices throughout the list. Business was not larger than yester-day, while the delivery of the Northern Securities opinion was in progress, but to-day's market was entirely lacking in the feverish tone and the erratic fluctuations which characterized yesterday

ations which characterized yesterday's market.

The buying was somewhat intermittent, but there were no intervening backsets. It was the general conviction that this buying came from a short interest which has counted upon a decline collowing the Northern Securities decision to buy mocks at a profit. There was no evidence to-day of any pressure ty sell on account of the decision, and the bears, upon perceiving this, proceeded to buy to cover their short contracts. They found only moderate offerings of stocks and were coll gid to bid proces in considerably before they were able to supply their needs. The Northern Securities call was sufficiently in the whole market linged. It is explete that, uside from the emburrassment incident to a redistribution of securities, the manufal community has materially morfied its feeling of was sufficient the period when its mere mention was sufficient to configre up buoyant activities in the stock market. Another important influence upon the sentiment of operators was the assurance conveyed in Attorney-General Knox's statement that "the government does not fined in trun anuck." This was accepted as an intimation that the powers now undoubtedly secured to the executive and believed to be applicable to many other important corporations, which have been pointed to as vulnerable under proceedings based on the case just determined, were conspicuous in to-day's upward movement.

Northern Securities itself and securities of the companies immediately affected were strong and gave a sympathetic tool to the rest of the market. A rush of belated shorts to cover who had a flict in hopes of a reaction, made the closing strong and active at about the top prices of the day. The Paciles, Eries and the Pennsylvania group show gains of 2 points or upwards.

The bond market was firm and more retire, with the strength of Burtington joint is and United States Beel 2d bs.

Total sales, par value, 11,776100.

United States bonds were unchanged on call.

Mr. Schiverea, the Evangelist.

The evangolistic meetings for men, which are being conducted under the auspices of the Young Men's Christian Association, are growing in interest. The meeting last night at the Second Enptist Church was well attended, and there were several decisions for Christ, The meetings during the remainder of the week will be held in the Young Men's Christian Association Hall, Special music will be arranged for each meeting. Mr. Schiverea is certainly a strong man and he presents the gospel in a plain and forceful way, He took for his subject last night Paul's exclamation: "I am not ashamed of the sospel of Christ, for it is the power of good unto salvation."

These meetings are for men only, and the men of Richmond have a great opportunity in the chance of hearing this man of God. Mr. Schiverea, the Evangelist.

Before a large audience assembled last night at the Leigh Street Baptist Church, under the auspices of the Mon's Chrisdelivered an address in which he came out squarely and unequivocally for Japar against Russia, and invoked the success of the Japanese arms.

was, "Right vs. Might in the Far East." He said that a great drama is being enacted in the far East, with the whole world as interested observers. But the tain of the censorship hiding the scene.
He asked what do Japan and Russia stand for. Japan stands for open ports, free religion, the educating of the people, a free press and constitutional gov-

sored literature.

After speaking of the comparative forces engaged, and the possible issues of the contest, he said:

We hear much in these days of the "Yollow Peril." One thing is certain, the millions of Eastern Asia can no longer be eft in their sleepy islation. The waters of that dead sea of humanity are going to be stirred. Will the leadership of this vast mass of men fail to Russia or Japan? Evidentily there are Russian agencies at work endeavoring to spread abroad a terror of the yellow race led by Japan. But the yellow perilies rather in Russian domfnation of Asia. The danger lies in the possibility that China may be organized and mobilized, but not civilized and Christianized. That is exactly the characteristic of Russian expansion. Russia does not civilize and educate and retine her subject population, but she does organize them with a strong hand. If the millions of China ghould be so treated, they would indeed be a menace to the civilized world. Japan would be the medium by which Christiarity, as we understand it, and western ideas would be litroduced, and to civilize and Christianize China is a safeguard of the best interests of the human race.

Japan is both imitative and original.

so, do by an admiracle cast, headed by Edith Warner and Fraderic Summer, the Idomer playing Fannie Le Grande (Sapho), and the latter apearing as Jean Gaussin.

"Sapho" has never been seen in Richmond. Since Oliga Nethersole created a sensation in New York with the piece several seasons ago, it has been played from ocean to ocan by stock and road companies, but none of them gave the theatre-goers of this city an opportunity to see in dramatic form the story that has been so widely read since the play was suppressed in New York.

Seats for "The Ameer."

The ameer, the opera which is to be presented for the first time in this city, by the bold Opera Company next Monday night, will go on sale at the box office Thursday morning. The company will reach the city during the day of Friday and will take a rest before heighning the tour of the Wells elevation. For more than two weeks the company has been rehearsing "The Ameer" and "The Idol's Eye" for ten hours a day.

FOR SHIP-YARDS

Some people in a position to know what they are talking about express the opinion that the reopening of the Trigs shippard is not an idle dream. A bill is pending in Congress to reimburse the snippards of the country for their losses in building torpede boats and torpede boat destroyers for the gavernment at a time when all the yards were experimenting with this new craft. These experiments, it is said, broke the Trigs Company, and if the bill passes, the refunded money will go so far towards liquidating its debts as to reasonably assure a resumption of work.

One optimistic reorganizer gies so far as to predict a resumption of operations by Christmas, if the bill passer, and it is said that the prospects for its passage are good.
